

DIALYSIS TECHNICIAN

This 50-hour course prepares students for entry-level employment in a kidney dialysis center. The course provides the theoretical knowledge and hands-on skills needed to perform clinical and technical duties. Course content includes medical terminology, anatomy, renal function, and principles of renal dialysis. Additionally, students are provided with training to help prepare them for the Board of Nephrology Examiners Nursing and Technology (BONENT) exam. Textbook is included. **There is a mandatory orientation for this class on Tuesday, Jan. 12 from 6-7 p.m.**
